

Fausto Martin Sosa

Junior .NET Developer / Application Support Engineer

Cork, Ireland · +353 833 048 767 · faustomartinsosa@gmail.com · [linkedin.com/in/fausto-sosa](https://www.linkedin.com/in/fausto-sosa) · github.com/faustososa22

STAMP 4 Visa (EU-FAM) — Full working rights in Ireland, no sponsorship required

PROFESSIONAL SUMMARY

Junior .NET Developer with hands-on experience building RESTful APIs using ASP.NET Core, Entity Framework Core, SQL Server, and PostgreSQL — including JWT authentication, role-based authorization (RBAC), and CI/CD with GitHub Actions. Has shipped production full-stack applications with AI integration (Claude API with tool use) deployed to Azure App Service and Vercel. Also brings real-world L1/L2 application support experience, making combined dev + support roles a natural fit. Based in Cork with full working rights in Ireland.

TECHNICAL SKILLS

Backend: C#, ASP.NET Core Web API, ASP.NET Core MVC, Entity Framework Core, LINQ

Database: SQL Server, T-SQL, Stored Procedures, PostgreSQL, EF Core Migrations

Auth & Security: JWT Authentication, Role-Based Authorization (RBAC), BCrypt

AI Integration: Anthropic Claude API, Tool Use / Function Calling

Cloud & DevOps: Azure App Service, Vercel, Docker, GitHub Actions (CI/CD), Git

APIs & Tools: REST API design, Postman, Swagger/OpenAPI, Scalar

Frontend: React 19, TypeScript, JavaScript (ES6+), HTML5, CSS3, Bootstrap, Axios

Languages: Spanish (Native) · English (B2 — Professional)

PROJECTS

Job Application Tracker · ASP.NET Core · React/TypeScript · PostgreSQL · Azure · Vercel · github.com/faustososa22/JobTracker

- Full-stack job search manager: ASP.NET Core REST API + React 19 + TypeScript; PostgreSQL + EF Core following a strict layered architecture (Controllers → Services → Repositories → DB Context).
- Status workflow (Applied → Interviewing → Offered → Rejected) with full audit trail of every status change per application.
- AI-powered CV match analysis: paste a job description and receive a match score and tailored feedback using the Claude API with tool use.
- JWT auth; backend deployed to Azure App Service, frontend to Vercel; CI/CD via GitHub Actions; API documented with Scalar.

Barbershop Appointment System (Turno App) · ASP.NET Core · React/TypeScript · PostgreSQL · Azure · Vercel · github.com/faustososa22/turno-app

- Full-stack appointment system with JWT auth and role-based authorization (Client / Barber / Admin); real-time availability logic preventing double-booking.
- AI chatbot via Claude API with tool use: floating widget guides users through booking in natural language, calling live DB tools (get_barbers, get_services, get_slots, create_appointment). Rate-limited to 15 req/user/hour.
- Backend on Azure App Service, frontend on Vercel; CI/CD via GitHub Actions; API documented with Scalar; unit and integration tests included.

PROFESSIONAL EXPERIENCE

IT Support Technician · Grupo Oroño · Jun 2022 – Oct 2023 · Rosario, Argentina

- L1/L2 technical support for 100+ users in a healthcare environment — diagnosing hardware/software issues, managing escalation paths, and prioritising critical incidents.
- Managed Active Directory, group policies, account provisioning, VPN access, and virtual machines.
- Documented recurring issues and created knowledge base articles to speed up resolution times.

EDUCATION & CERTIFICATIONS

Higher Diploma in Programming (In Progress) · Universidad Abierta Interamericana · 2023–Present · NFQ Level 6–7

ASP.NET Core Web APIs & MVC — Udemy (2024) · SQL Server & EF Core — Udemy (2024) · React & JavaScript — Udemy (2024) · Web Development — CoderHouse (2023)
